

Caption: On a two-lane road, a motorcyclist is traveling forward in the right lane alongside a car. Another motorcyclist is moving in the opposite direction in the left lane. Two pedestrians are walking on the sidewalk, while parked cars remain stationary on the right side of the road. The road is flanked by trees, and faint lights from buildings or streetlights are visible in the background.

Q: How many motorcyclists are traveling on the road, and in which lanes are they?

A: There are two motorcyclists; one in the right lane and one in the left lane.

Q: What structures or natural elements are present alongside the road?

A: The road is flanked by trees on both sides.
