

Caption: Three cars are traveling in the same direction on the road during night time. The car in the foreground maintains its position and speed relative to the other vehicles, with two cars in the middle lanes moving forward and slightly changing their relative positions. Three green traffic lights and a large signboard are visible above the road, while faint lane markings can be seen on the road surface.

Q: How many cars are traveling on the road in the same direction?

A: Three cars are traveling on the road in the same direction.

Q: What is visible above the road aside from traffic lights?

A: A large signboard is visible above the road along with traffic lights.
